## Parmenon Flute

# PARMENON FLUTE

In 1979, Michel Parmenon founded a new French flute brand meeting the flutists' highest expectations. Since then, our company designs high-end instruments giving full expression to musicians' emotions. Sound culture, combination of precision and aesthetics, premium alloys, handmade manufacturing techniques are the hallmarks of our craft-workshop.

As a recognition of our expertise, some patents have been developed for large companies such as Selmer for which we had the saxophone enhanced.

Modern flutes naturally make an almost "pure sound " as defined by acoustics. This "pure sound" is then supplemented with varied harmonics. All the art of the flutist is to model its own sound playing on those harmonics, as a painter would do with his palette.

The Böhm system largely modified the harmonic structure of the flute. If this system remains a major breakthrough, some fields like harmonics have hardly been explored so far.

If we chose to care about sound, it's because we've carefully listened to what musicians expected from their instruments.

Our acoustics concept proved to be relevant granting us the avant-garde position in flute craftsmanship.

Models : Auréi / Métis / Ovatio / Odalis

## Mancke Flutes

Mancke Flutes is a family business led by Tobias and Christoph Mancke. Christoph began his flute studies in 1965 with Prof. Ludwig Jann, Dortmund. Soon after, his love of music and of the flute led him to construct the instrument itself. In 1986, he produced the first Mancke headjoints.

Tobias started his music studies on the saxophone before switching to the flute. He studies with

Hans-Martin Muller, WDR Radio Symphony Cologne. He is a trained toolmaker and has made

tools for (among others) Dana Sheridan, from whom he has received his training in flutemaking.

Since then, he has established his reputation for professional flute repairs and overhauls. He is active as well in head joint construction.

## Haynes Flutes

WM. S. HAYNES Co.  
BOSTON, MASS

William S. Haynes., founded 1888, first established his name as a flute maker through his dedication to exacting detail in every instrument that left his workshop. Then in 1913, he created a breakthrough in design that set Haynes flutes even more above the rest. This breakthrough, which resulted in a patent, corrected a design flaw that had troubled flutemakers and players up until that time. Through a combination of classic detailed hand-craftmanship and innovation in design and technique, William S. Haynes set a standard that prevails to this day at the flute workshop that still bears his name.

Haynes flutes are revered world-wide by legendary artists of the past and present, including the great Georges Barrere in the early part of the century and the celebrated Jean-Pierre Rampal today. From the aspiring student to the master, the compelling presence of a Haynes instrument draws out the very best musical performance enabling instrumentalists of all levels to realize their full potential.

The William S. Haynes Co., manufactures the highest quality flutes in a variety of precious metals for the professional artist through students. Our flutes possess the modern Haynes pinless mechanism and headjoint as well as the Haynes A-442 scale. They are played by many of the world's outstanding flutists. William S. Haynes Co. Flutes are sold directly as well as through authorized Haynes Dealers worldwide. For a complete historical timeline and more information please visit [www.wmshaynes.com](http://www.wmshaynes.com).
